

## IBS Software enters Toronto, Ontario Sets up its thirteenth global centre of operations

IBS Software, a leading global provider of new-generation IT solutions to the Travel, Transportation and Logistics (TTL) industry announced the setting up of an office at Toronto, Ontario, Canada. Through the new facility, IBS seeks to establish a business presence in Canada and provide business focus and support to customers/prospects in the region. This is IBS' fourth centre in the Americas after Atlanta, Washington D.C, and Phoenix and the thirteenth worldwide.

According to **V K Mathew, Chairman and CEO, IBS Group**, 'IBS has been growing rapidly in the past few years. We foresee great potential for growth and expansion of our business in Canada and this office in Toronto will provide our customers the focus and support in line with IBS' global delivery model.'

'IBS, with its comprehensive suite of products and solutions for the travel, transportation & logistics industry, will be able to leverage the new office in order to maintain a focused, Canadian approach, ensuring success for its current and future customers' said **Alan Young, IBS' Head of Operations, Canada**. Having worked with numerous customers across this region, Alan brings an in-depth understanding of the Canadian market and over 23 years of experience in the Travel, Transportation and Logistics domain. Under his leadership, IBS is confident of achieving its business goals for the region.
