

## Frameboxx Organizes a Mega Seminar on Animation & Visual Effects

Frameboxx, a versatile conglomerate with a focus on 'Animation & Visual Effects', organized a mega seminar on Animation & Visual Effects for students aspiring to make a career in this field. Already a strong brand name in the field of producing adept animators, Frameboxx aims to cater to the needs of all aspirants who are keen to take up a profession in the Animation Industry.

The seminar which was organized in association with CGTantra - India's leading online animation community and forums saw a host of Animation Industry professionals descend upon Delhi to participate and present in the symposium. These included Mr. P.C. Vikram, Big Animation Studios, the Team from the Oscar winning Rhythm & Hues, Mr. Uttam Pal Singh, Santa Banta Series & Mr. Abhishek Chandra, CGTantra. The aim of these stupendous delegates was to educate the nascent animators and animation aspirants about the bright career opportunities in Animation and to increase awareness on the intricacies involved in creating world class award winning animation content.

The aficionados witnessed the making of some stupendous movies like Oscar Winning Golden Compass, Little Krishna and the famous Santa Banta Series. This added a different zing to the entire event as the people were endowed with a theoretical as well as a practical insight.

In his inaugural address, Mr. Rajesh Turakhia, Managing Director, Frameboxx said 'We believe that this kind of exposure is very necessary for animation aspirants and we have just made an effort to bring the industry professionals and the student community together on a common platform, which would definitely leave the students with an experience which I am sure they will always cherish.'

Mr. Naveen Gupta, Executive Director & CEO, Frameboxx added, 'Animation has a tremendous future and career opportunities and such seminars abet in a big way to create awareness among students of the unlimited career prospects in animation and to create a platform for budding animators to interact with the industry professionals. We are glad that professionals from the industry participated and lent their full support to the seminar.'

The seminar served as an interactive session for the aspirants; as the floor was open for all industry related and career questions. This helped the audience to understand animation in a better way as their queries were answered by the experts themselves.
