

Woman poisons her three children, herself

A woman killed her three children by giving them poison and then committed suicide by consuming it in a Bihar village, police sources said Saturday.

Bhagwani Devi, in her 30s, ended her life along with her three children by consuming poison at Muzoli village in Bhojpur district, about 60 km from here, after a heated dispute at home.

Her neighbours told the police that hours before the incident, she had a quarrel with her husband.
