

Akshar Office - A Complete Office Productivity Suite

Artech India, announces the release of AKSHAR OFFICE, a complete office productivity suite. Akshar office is an affordable alternative for corporates which are looking at reducing their licence fees and do not want to compromise on quality.

Artech is a renowned name in the market of Multilingual Softwares. Prior to Akshar Office, it has marked success with products like Akshar Naveen and Artech ERP. Two major factors that distinguish it from other office suite brands in the market are its Cost effectiveness and Customization according to client's requirement.

"We are excited to announce the release of our fully loaded Office Suite which is a perfect match for small, medium and large businesses." said Jeetendra Kapoor, Technology Head, Artech Infosystems. **"The product is the result of an outstanding technical collaboration of all our software development & testing divisions, and a high level of integration."**

Akshar Office has a set of stable and well-developed office applications: A word processor (writer), spreadsheet (calc), presentation manager (impress), and drawing program (draw). As a fully integrated tool, Akshar Office has a consistent user interface with PDF Export facility. It also provides Graphics Facility. Its communication tools provide the Emailing Integration Interface (inbuilt emailing function). Third party mail clients like Lotus Notes etc are integrated with it. One can send the current opened document in Akshar Office to mail recipient using the currently installed mail client application in that PC.
