

CitiXsys featured by Dun & Bradstreet as one of "India's top IT Companies 2008"

CitiXsys is pleased to announce it has been featured as one of 'India's Top IT Companies 2008' by Dun & Bradstreet (D&B) in its premier publication. A nationwide survey of Indian IT companies was carried out by D&B evaluating over 11,000 companies out of which only 210 were selected. Company listings profiled in this publication have been selected on various parameters, viz., location, company size, total income, services offered and operating verticals.

'In the past, CitiXsys has won several accolades and awards; however, being recognized by Dun & Bradstreet on a national level across India is definitely a great milestone and accomplishment for CitiXsys,' said Kamal Karmakar, CEO of CitiXsys. 'This recognition is an acknowledgment of CitiXsys as a leading provider of SAP Business One Solutions in the retail, distribution and financial industry and reconfirms our strong presence to compete successfully at all levels and emerge as a market leader,' he added.

Dun & Bradstreet is recognized around the world as the leader in providing global business information has been enabling companies to Decide with Confidence® for 165 years. The company manages a commercial database of over 100 million companies and is supported by D&B's proprietary DUNSRight® Quality Process, which transforms the enormous amount of data collected daily into decision-ready insight. Customers around the world have come to rely on Dun & Bradstreet as a provider of the world's largest and high quality commercial business information database.
