

## A new approach to IIT-JEE Preparation

**Vidyamandir Classes**, the recognized leaders in IIT-JEE coaching, today announced the launch of next generation distance learning course for IIT-JEE aspirants. The new 'Correspondence Course for IIT-JEE 2010' is now power packed with online support, assessment, performance analysis and on demand problem resolution features along with the recognized high quality study material.

A first of its kind in India the course developed by Vidyamandir Classes and web technology support provided by **www.100percentile.com**, leading education technology solution provider revolutionizes the test preparation and learning approach. The study material, prepared to facilitate self study mode, has been crafted by teachers of Vidyamandir Classes, keeping in mind the present trend of IIT-JEE. Under the course curriculum this is provided to students in physical format. In addition the new curriculum is integrated with online assessment and support. This includes regular practice/assessment through online tests, performance reports and analysis, thus providing students with a detailed feedback on their performance, strengths and weaknesses. Also, the course design provides students with a facility of on demand problem resolution, where students can interact with Vidyamandir teachers through online forums and get their doubts cleared.

'We has been successfully running our correspondence course for IIT-JEE aspirants for over 10 years, the course is highly sought after and is an indispensable tool for the students aiming for success at IIT-JEE' said **Shyam Mohan Gupta, Director, Vidyamandir Classes**, 'This course has been the first choice of thousands of IIT-JEE aspirants who have successfully achieved their targets. As educational needs change, Vidyamandir has always been the first to change and grow to meet those needs. Introduction of technology supported online features in our new curriculum will enable us to give students the best service, along with providing them with the personalized assessment and detailed analysis of their performance, something which is not possible by any teacher due physical constraints.'

**Manmohan Gupta, Director, Vidyamandir Classes** added that 'Every year we are able to offer our regular courses only to about 5% of the total students who are interested in them, due to limited space in our classes. Quality of Vidyamandir course material is really the key to our success, through the newly introduced online technology assisted support and on demand problem resolution features we would now be offering most of the benefits that our regular students enjoy to the students of our correspondence course. Not to mention the added convenience, students get top class test preparation assistance right from the comfort of their home.'

The web technology support and features in this enhanced and unique course is provided by [www.100percentile.com](http://www.100percentile.com), a leading provider of education technology solutions. 100percentile's advanced software platform, using which the online assessment, support and on demand problem resolution facility is integrated into the Vidyamandir Correspondence course, is a state-of-the-art assessment, analysis and feedback system. Hundred Percentile Education was founded by established leaders in the educational software market and is overseen by an advisory board comprised of some of India's most reputed experts on education.
