

NELCAST chooses TVS Infotech's Foundry Solution (Project will feature TVS Infotech FoundryTec solution with exclusive best practices of foundry industry)

Chennai, 09/06/2008 - TVS Infotech, a leading global consulting and IT services company, today announced that [Chennai](#) based Nelcast Limited (one of the largest SG (Spheroidal Graphite) Iron casting producers with over Rs. 250 Crore turnover) has selected TVS Infotech to implement *FoundryTec* a solution based on SAP system to support its business worldwide.

The demand for metal castings owing to the overwhelming growth of the Indian Auto and auto supplier market has brought information technology focus for Foundries. Foundries today are increasingly investing in their IT infrastructure to retain their competitive edge. It is at this juncture that *FoundryTec* proves to be an end to end IT solution for the foundries.

TVS Infotech envisions this strategic partnership with Nelcast to aid *FoundryTec's* foray into the foundry businesses worldwide. Recently, TVS Infotech had successfully implemented FoundryTec in the 9 plants of Autolec, Foundry Division of Sundram Fasteners Limited.
