

**ASUS Ranks 9th on BusinessWeek InfoTech 100** ASUS has achieved yet another milestone by ranking 9th on the world-renowned *BusinessWeek* Infotech 100. This year also marks the 11th consecutive year that ASUS has been ranked on the prestigious listing, and is indicative of a massive growth from last year - from #29 to #9.

Based on financial data gathered from Standard & Poor's Compustat - a division of the McGraw-Hill Companies with computerized data on over 30,500 publicly traded corporations; companies are ranked according to revenue growth, shareholder return, total revenue and return on equity. With revolutionary innovations, a diverse range of products and a clear vision of the future of the digital age, ASUS has once again proven its stature as a leading IT company.

**Commenting on how ASUS has been in the international limelight recently, Mr. Jonney Shih, Chairman of ASUS, humbly replied, 'ASUS is continuously improving and we still regard ourselves as a 2nd-Tier company.' He also stressed, 'I believe that ASUS will continue to develop on our corporate culture of 'focusing on fundamentals' while 'being result-oriented' to further develop our own 'ASUS Way'.'**

**Pleased to hear this recent news, Mr. Albert Tung, Managing Director, ASUS (India) said, 'This ranking is a result of our ongoing endeavors of enriching the lives of our customers with our innovative technology products. We're most pleased to hear about this news and this will further propel our drive to be one of the top most technology providers in India.'**

With a prolific range of products that encompasses the Eee PC&trade;, motherboards, notebooks, barebone systems, servers, graphics cards, handhelds, wireless and broadband devices, monitors and other computer peripherals, ASUS is well-equipped to bring the new digital era to demanding user needs.
