

CEO of multinational company missing

The top official of a Gurgaon-based multinational software company has gone missing since June 18. His wife has alleged the police have not done much to trace her husband.

Subhashish Mitra (32), the CEO of Zentech Ltd at Gurgaon, left his Amrapali Apartments residence in Sector-3 Vaishali, on June 18.

His wife, Arunati Mitra, lodged a missing persons complaint with the Indirapuram police. However, police recorded the incident as 'missing' in their general diary on June 20.

Subhashish and Arunati were earlier working with Wipro India Ltd. They had married in 2002. They have a four year old son.
