

## Go Big with ASUS P320 Mini Stylish PDA Phone

The exceptionally elegant ASUS P320 Mini Stylish PDA phone was designed for the fashion-conscious who are constantly admired for their accessories - including their hand held choices. The P320 presents an ultra compact form that makes it feel almost weightless in a lady's palm. Its fashionable outlook is slim and slender, and is molded with round curves that are aesthetically pleasing to the eye. And yet, this beauty is not just skin deep, as a wide range of features make it equally powerful and intelligent - all packed in neatly with an original and exclusive interface developed by ASUS.

### **Stylish All-Rounder**

With a chic and fashionable outlook, the P320 is a sure eye-catcher. Made to fit comfortably in the hand, the smooth mold of the P320 is carved out of gentle care and sophistication and exudes a stylish feel. Rounded corners, sloping edges and a circular navigational key are all built around the desire to please the eyes; while the mini compact size further accentuates its stylish appeal - making it the perfect elegant accessory for any social occasion.

### **Chic Performer**

This is where beauty meets brains. In spite of its compact size, this pretty mini PDA phone has an impressive array of powerful features. Operating on Microsoft Windows® Mobile 6.1&trade; Professional platform and packed full with features such as GPS navigation; EDGE/GPRS and WiFi for Internet access from anywhere, Bluetooth, USB and much more, the P320 is your best fashion accessory that brings you from work to play!

### **Easy Access with ASUS Today**

The P320 has a variety of exclusive applications designed for user convenience. With ASUS Today, icons such as time, calendar, messages, weather and the media player can be seen easily in the same window - providing users with easy access to their needed functions. The ASUS RSS Reader - which receives up-to-date information automatically and provides the latest news and blog updates - keeps users updated about current events or website updates.

Another handy application is the Ur Time, which also allows users to set up to four different countries' default time on the phone desktop for quick country-specific time references; convenient for setting meetings worldwide. With Auto Cleaner function, never worry about applications being hidden when you want to close them. The Auto Cleaner Function ensures those intended applications are really closed, thus freeing up space and memory for other functions.

**About the launch of this latest PDA Phone from ASUS, Mr. Edward Wang - Business Head, Mobile Communication Business, ASUS (India) said, 'The ASUS P320 is designed stylishly and is by far the smallest ASUS PDA Phone. The size of the phone is compact and handy, and it is meant not only for business professionals but is also a fashion gadget for all youngsters, students and ladies. The phone is competitively priced as ASUS would like more people to enjoy the benefits of using a PDA Phone. People will find it very easy to use this phone due to our brand new 'ASUS Today' interface. The ASUS P320 will bring about a new wave in the PDA Phone market in India with its brand new user experience.'**
