

Bosch Car Service widens footprint in Bangalore

India's largest auto-component company, Bosch Limited, a subsidiary of the Bosch Group, today announced the inauguration of two new Bosch Car Service (BCS) outlets in [Bangalore](#) at Jayanagar (M/s. Mot0 smiths) and Whitefield (OM Sai Service). The Bosch Car Service centres are a one stop destination for customers and service stations and will provide comprehensive solutions for all makes of cars. Bosch currently has 187 BCS across the country.

'Bosch Car Service has set new benchmarks in the car service domain and we are proud to expand out footprint with two more Centres in Bangalore. The car service business is recording accelerated growth and gives us an opportunity to provide additional expertise and value to our customers,' said Mr. Ravi Krishnamurthi, Regional Sales Director, India & SAARC, Automotive Aftermarket at Bosch Limited.

The Bosch Car Service is an initiative to provide world class service to the new generation cars that have entered the Indian market. It is equipped to service car brands across original equipment manufacturers, by offering genuine spare parts, diagnostics and repair. BCS outlets also provides diagnostics for new generation technologies such as the common rail systems, ABS and ESP. The BCS also offers specialist servicing for diesel powered vehicles. The type and variety of professional services provided by the BCS workshop is superior to that offered by any general workshops thus resulting in higher customer satisfaction.

Bosch has more than 13,500 BCS operations worldwide, each guaranteeing perfect Bosch quality in the workshop services they provide, and are the last word in on-the-spot, high-quality vehicle maintenance.
