

UST Global opens Bangalore office

IT solutions provider UST Global Friday opened a new office in Rockline Centre, Bangalore, which would act as the company's sales headquarters in India.

Headquartered in Aliso Viejo, California, UST Global has more than 5,500 employees world over, of which more than half are from the Technopark campus here.

'We see India as one of the fastest growing IT services markets as enterprises are becoming increasingly discerning and investment savvy. This new [Bangalore](#) office is a result of UST's growing presence in the southeast region, specifically India,' said Bharath Krishnaswamy, UST Global general manager for Southeast Asia region.
