

Loyola Institute of Business Administration opens admissions for its suite of business management Certificate Programmes

Loyola Institute of Business Administration (LIBA), a leading business management institutes in India announces the commencement of its 3 month certificate programmes. These certificate programmes are available for courses in Finance, Sales & Marketing, Information Security, Control & Audit of Business Information Systems, Software Testing, Supply Chain Modelling & Analysis and Management of Human Resources.

The programmes will focus on various functional areas of business and management generating adequate expertise to implement learnings. Concepts, applications and practices for each course will be presented to students by trained professionals and experts in the field. Individuals who are looking to rapidly improve knowledge and skills at managerial positions will immensely benefit from this course.

The Information Security, Control & Audit of Business Information Systems is a special course designed in collaboration with ISACA, [Chennai](#) Chapter aimed at creating awareness of the risks associated with Information Systems and the knowledge required to secure it. Another tailor-made course is the Sales & Marketing programme for non-marketing executives who are interested in acquiring more knowledge on the subject.

Graduates in any discipline from a recognized university can apply. Admissions have been open from July 14, 2008 and will close on August 04, 2008. For more details on the programmes please contact LIBA: 044 28175353 extn 221-223 or e-mail: juhee@liba.edu
