

IACM announces "Vijayee Bhavo Scholarship'08" on the grand occasion of its 11th Anniversary"

Upto 100% scholarships will be awarded as fee waiver to the eligible students for its 14 months MASTERCONNECT programme in Computer Hardware, Networking and Security Systems. The evaluation will be done on the basis of the marks scored in 10+2 board examination. A 5% additional fee waiver under CSR scheme will be awarded to following categories:

• Girl students.

• Children of Ex-service man, Widows, War Widows, Families with annual income of below Rupee One Lac.

• Physically challenged students.

'IACM Certified Complete Engineers will enjoy unfair career advantage over others, who choose to train only in Computer hardware and networking with a namesake exposure to security training. However, under this program we provide comprehensive training on the implementation, administration and maintenance of security systems. This helps students to have a much better career options,' commented Ravinder Goyal, Director, IACM SmartLearn Ltd. 'As Vijayee Bahvo Scholarship scheme will be available at all our centers across the country, this is good opportunity for the students to avail the scholarship and go for fast forward career with IACM,' opined Goyal.

IACM will award the certificate to all the students, participating in the Scholarship. To win the scholarship, students have to visit the IACM centres along with their two passport size photographs and 10+2 mark-sheet. If student is eligible under CSR scheme for additional 5%, they have to bring the relevant documents along with as well.

About 14 months MASTERCONNECT Programme:

IACM is the only Training institute which not only provides Computer Hardware and Networking, but also provides Security Systems training for 10+2, that leads to a well balanced program along with 80 hours of training on security systems implementation, administration and maintenance using the wired and wireless technology. Along with the training on the security systems management, which includes Biometrics, Smart Cards, Access Control Systems, Fire / Intruder Alarms, RFID & more, the program also covers training on Computer hardware maintenance, Windows Server, WiFi-VoIP, MS Exchange, Cisco Router and Linux. Through this 14 months program, IACM trains a 10+2 student to become coveted 'Complete Engineer' capable of implementing, administering, maintaining Computer Hardware, Networks and overall Security Systems, which is not limited only to IT security. To make it more affordable, the institute accepts 12 equal installments from the students hence reducing the burden of paying huge down payment as it happens with other institutes. IACM also provides 100 % job guarantee and unlimited placement support. The training major has placement contacts with more than 300 companies across the country.
