

Lohan moves her ring to engagement finger

Actress-singer Lindsay Lohan's recent behaviour concerning her lesbian relationship with DJ Samantha Ronson is causing a lot of speculation, especially after she was spotted moving her ring to her engagement finger.

According to mirror.co.uk, she wore a heart-shaped ring on the middle finger when she and her girlfriend were leaving the Baglioni hotel in Kensington Saturday. They then went to Ronson's DJ performance at the Cafe de Paris. But when they got there they were posing for official pictures and at that time, Lohan's ring had been moved to her engagement finger.

There were also reports recently that Lohan was starting to think that she may not be a lesbian and wants to get out of the relationship with Ronson.
