

Rs. 3 Lakh in Cash Prizes: 300+ winners already

Experience the thrill unleashed with Multi Player Tournaments on Games24x7.com, India's 1st Online Tournaments portal. With over 15,000 Online Tournaments and over Rs. 3 Lakh won in cash prizes, **Games24x7.com today announced the launch of their multi-player knock-out tournaments platform.**

'The new tournament engine will help us expand our tournament offerings rapidly. Now we will be running 32, 64, 128, 256 multiplayer tournaments and our technology backup allows us to scale it to any number, given the demand. This will reduce disappointment for late enrolments. And now we are all set to offer the most unique winning experience to thousands of players across India.' explained Mr. Vishnu Ram, CTO, Games24x7.com.

Our research also indicates that www.games24x7.com **is India's 1st and only online tournaments portal that gives real cash prizes.** The real-cash knock-out tournaments in rummy and chess are a daily attraction and have helped the portal to grow rapidly.

'Today we are proud to be **India's 1st Online Tournaments Portal** which is earmarked with these important milestones. We are happy to see the good response to our existing 'Jhatpat' and 'Trump' tournament series. We look forward to expand our online tournament offerings and continue to hold our leadership in online tournaments in India.' concluded Mr. Sachin Uppal, Marketing Director, Games24x7.com.

What is most interesting about games24x7.com is that as a special introductory offer, there is no tournament entry fee. Anyone can just log-in, play tournaments, and if sufficiently skilled at the games, laugh all the way to the bank. Surely it makes sense to say play more and win more at Games24x7.com.
