

Serena Williams' pets surprise guest

A guest at the Bryant Park Hotel got a surprise when he returned to his room and found two of tennis star Serena Williams' dogs sleeping in his bed.

Pagesix.com quoted a source as saying: 'Williams checked into a suite with a terrace, and the guest staying next door to her left his door open a crack. When he returned to his room, he was greeted by Williams' two dogs sleeping on his bed.'

The dogs apparently jumped the planter box separating the terraces and managed to squeeze into the other guest's room.
