

Abhishek-Aishwarya to wed in April?

Will they or won't they marry next month? Rumours are rife that Bollywood's hottest couple Abhishek Bachchan and Aishwarya Rai will tie the knot on April 19 at the Bachchan residence Prateeksha here.

However, a source close to the family denied an imminent wedding. 'It is just a rumour, nothing else. People are saying that the cards are ready and that the date and venue are already decided, but there is no truth in these claims,' he said.

Since the two stars got engaged in January, wedding-date rumours have persistently dogged the pair. The Bollywood grapevine had it that they are tying the knot on Feb 19 and when it didn't happen on that day, they put forth March 19.

Abhishek's superstar dad Amitabh Bachchan has said the family is as impatient as others, but haven't been able to finalise a day due to paucity of time.

'We still haven't got a date. The two of them are so busy, we haven't been able to sit down and work it out,' Amitabh had said, while denying reports that the wedding was supposed to take place on Feb 19 or March 19.

Abhishek and Aishwarya are busy shooting for 'Drona' and 'Jodha Akbar', respectively.
