

QuEST, as part of CTQ Engineering, is awarded multi-year preferred supplier contract

QuEST, a leading provider of engineering services, offering end-to-end product development and engineering solutions, today announced that **GE Infrastructure has awarded one of two five-year Super Center contracts for Engineering Services to CTQ Engineering, a Joint Venture company formed between CDI, TK Engineering and QuEST.**

The five-year agreement will encompass engineering work on a global basis for GE Infrastructure, the largest operating segment of GE, which includes units in Aviation, Energy , Oil & Gas, Transportation and Water.

'This win highlights the strength and strategic importance of QuEST's 10 year relationship with GE, and endorses QuEST's global engineering services capabilities. We are honored by the confidence that GE has shown in QuEST and our CTQ joint venture, and we are eager and well prepared to take on this engagement,' said Ajit Prabhu, CEO, QuEST.
