

Paris Hilton's nude pics on adult website

An x-rated website featuring nude shots and videos of the celebrity socialite, Paris Hilton, has reopened after being shut down following a court injunction.

According to pagesix.com, Hilton sued the site's owner/operator Barida Persa earlier this year for privacy and copyright violation. The site www.parisexposed.com includes embarrassing items like her topless lesbian photos, love letters, medical records and celeb phone numbers.

One of the video clips show the 26-year-old hotel heiress being filmed during her bubble bath.
