

Megan Fox's English impression

Actress Megan Fox believes that England has not changed since Victorian times.

Though the 'Transformers' star has never travelled to the country, she has an impression of what she will find there when she visits the island nation, contactmusic.com reported.

She says: 'I imagine it as having lots of stone cathedrals and cobble-stoned streets, and being cold and foggy. And full of mysterious, cool-looking people. I always see this show on our travel channel, Most Haunted (U.K. ghost-hunting show), you know it? I always think England is just like that.'
