

## Serena Williams dating rapper Common?

Tennis superstar Serena Williams, who last dated 'Rush Hour' director Brett Ratner, has lately been spotted with rapper Common.

Williams was wearing a shiny baby-doll dress and was holding hands and getting 'very close' with Common at a party for her sister Venus, [pagesix.com](http://pagesix.com) reports.

'They were very friendly, arm-in-arm. She looked great. All night they were sitting together. They were keeping it cool, but you could tell Common likes himself some Serena. I asked a friend of his and was told they are dating,' said a source.
